Wood Product SIGNS

ABOUT US

Wood Product Signs has been working with the Federal Government since 1986! We offer computer routed signs (HDPE Plastic, Western Red Cedar, Oak, Sign Foam & MDO Plywood), Reflective HDO Plywood and Aluminum signs, along with everything you need to complete your sign project. While our customer base continues to grow, we are still a small, family-owned business. We are located in the beautiful Rocky Mountains of Colorado.

All National Park Signs we manufacture are in strict compliance with the NPS UniGuide

Custom signs are also available. If there is something that you cannot find in our catalog, please do not hesitate to contact us. Custom sign orders are welcome.

Routed Arrowheads

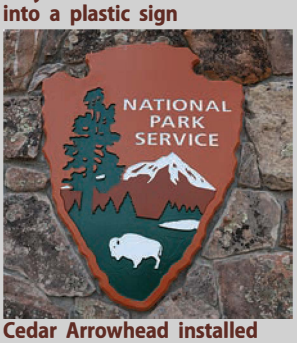
Our Routed Arrowheads are made to NPS UniGuide Standards. The thickness of the Arrowhead depends on the size and the material. Please refer to the chart above.

We offer two options for installing your Arrowheads; inserts or keyhole slots. Inserts allow the Arrowhead to be mounted to a stud or bolt. A keyhole slot is a horizontal slot that allows an Arrowhead to be hung on a nail or a screw. Inserts or keyhole slots are included in the price of the Arrowhead, only upon request.

Digital Graphic Arrowheads

Our Digital Graphic Arrowheads are made to NPS UniGuide Standards. We offer full color shaded artwork, 2 color flat artwork and full color flat artwork. Digital graphics are cut to the shape of the Arrowhead. Digital Graphic Arrowheads can be applied to 1/8" lexan and inlaid into a routed pocket on a larger sign, or applied to 3/4" HDO plywood backing. Arrowheads can be ordered as a peel and stick decal to attach to a variety of surfaces. We also supply magnetic Arrowheads for service vehicles.

Acrylic Arrowhead inlaid into a plastic sign



Cedar Arrowhead installed on a stone column

Digital Graphic inlaid into a cedar sign

Digital Graphic ready to apply into a routed pocket for a flush inlay

Park Identification Signs

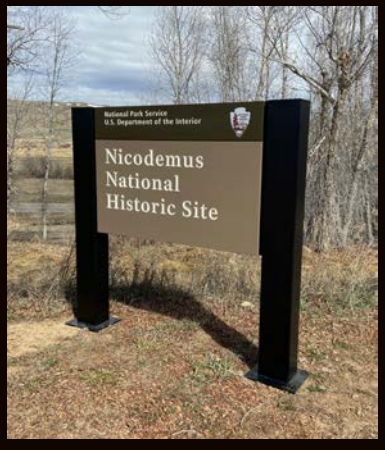
Park Identification Signs are made according to NPS UniGuide standards. Please contact us for pricing.

Park Identification Signs

Custom Entrance Signs

We specialize in making custom signs. Many of these signs were specially made to reflect the uniqueness of each individual National Park. Please contact us for pricing.

Sign Bases & Mounting



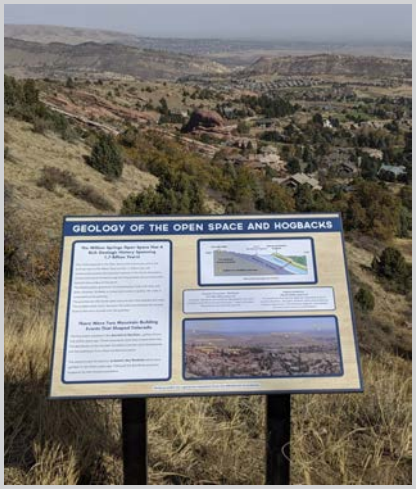
Installations

CHPL & Visitor Information Signs

Our wayfinding or interpretive sign panels are custom made and printed to meet your specific sign needs. We offer custom high pressure laminate (CHPL) signs in thicknesses ranging from 1/16" up to a self supportive 3/4" thick panel. Our panels are not glued, they are one solid piece after they are pressed. There is nothing to delaminate or come apart, making it easy to cut and shape which results in a highly durable interior or exterior material with a 10 year limited warranty.

Metal Framework & Custom High Pressure Laminate 70" x 30"

Our CHPL signs can be mounted into a variety of bases, including custom built log bases and powder coated aluminum bases.



Custom Trail & Visitor Information Signs

Plastic Sign 24" x 12"

Aluminum Sign 60" x 36"

Cedar Sign 47.5" x 36"

Cedar Sign w/ aluminum sliders

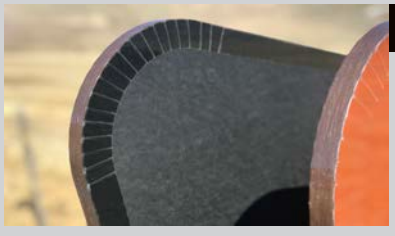
Aluminum Signs

Clear Coat

- Highly recommended for harsh conditions/ snow burial areas

Brown Vinyl Backing

- For highly visible areas to reduce glare off the sign back

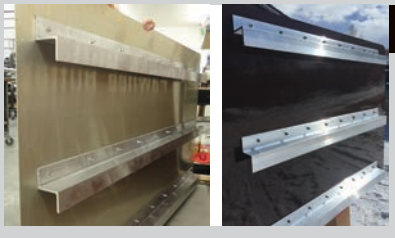


Edge Tape

- Recommended for snow burial areas

Sliders

- Open & Closed, Seasonal Closures, or Custom Messages
- Security feature/locks available



Z Bar

- Use to stiffen sign and/or allow for alternate mounting options

Laser Engraved Plaques & Dedication Arrowheads

Each plaque or dedication arrowhead is laser engraved into western red cedar. The plaque or Arrowhead is cut to shape and chamfered by hand. We apply a clear natural finish and attach a metal hanger on the back. Please be advised, WPS cannot guarantee likeness in the color of wood grain used for laser engraved plaques & Arrowheads. Each piece of wood used is unique. Laser engraved cedar plaques cannot and will not be homogeneous in color.
